

PROLIFE FACTS

Hundreds gathered last weekend for the “All for Life” Conference in Nelson. Representatives of various pro-life and pro-family groups renewed their commitment to work together, as they shared ideas and information, learned from each other, discovered ways groups could cooperate, and brainstormed future activities. Speakers addressed several important areas: post-abortion healing, GP-based support for pregnant women, the adoption option, natural family planning, and educating young people about sexuality and respect for life. There was also time to consider the political landscape at this time in New Zealand and reflect on how life issues have been portrayed in the media in recent times. The younger generation was well-represented at the conference, as well as many teachers, doctors, nurses, pastors and counsellors. All were greatly encouraged by the positive and purposeful atmosphere of the conference. The weekend highlighted the strong commitment to solidarity evident amongst pro-life, pro-family groups in New Zealand today as they reach out into the community to offer help and support where it is needed.
