

PROLIFE FACTS

The concept that we are not human until moments before birth, as suggested by the “born alive” proponents, is chilling, as was the 24 week bill, proposed by MP Steve Chadwick, but thus far not supported by the NZ parliament. Since the state of Victoria legislated to extend the termination time frame to the 24th week, terminations of special needs children and partial birth abortions have increased.

This reality is heart breaking! Feeling the child moving inside her...a mother must be desperate to seek a termination so late.

Contemplate for a moment the contrast; dwell in the embrace of a father who says to you and your children,

"Before I formed you in the womb, I knew you. Before you were born, I set you apart for my holy purpose." Jeremiah 1:5

And in our response we can say, "For you created my inmost being; you knit me together in my mother's womb... All the days ordained for me were written in your book before one of them came to be." Psalm 139 (13-16)

Fact: The “born alive” concept took all legal status from NZ unborn children in 2008 in the court case: Right to Life v The Abortion Supervisory Committee.
