

## PROLIFE FACTS

*Cradle of Hope, Gifts for the Gift of Life* was

founded in Auckland earlier this year. It is based on a highly successful American initiative, *Gifts for the Unborn*, which has distributed more than 130,000 gift packs over the past 16 years. **Cradle of Hope** provides gift bags of specially-selected items to expectant mothers at the time of their positive pregnancy test or first ultrasound; mothers who are in the process of deciding whether or not to bring their child (their “gift of life”) to full term. The pack acts as both an “intervention tool” and as a small blessing – a reminder that people care. **Cradle of Hope** is working alongside Bethlehem House Pregnancy Centre in Auckland, and hopes to reach out in love to many other centres and mothers around Auckland and New Zealand.

Included in the gift bag is a pair of booties, a small tube of handcream for mum, a specially designed photo frame card (to contain the ultrasound scan), a music CD, plus a message of encouragement. One way to support this work is to create and donate booties for newborns, or donate \$10 towards the cost of one gift pack.

For more information, phone 0800 367 5433 or visit the **Cradle of Hope** website [www.cradleofhope.org.nz](http://www.cradleofhope.org.nz).
